Technical Information No Fear Of

Technophobia (from Greek τέχνη technē, "art, skill, craft" and φόβος phobos, "fear") is the fear or dislike of advanced technology or complex devices, especially computers. [3] Although there are numerous interpretations of technophobia, they become more complex as technology continues to evolve.

Technophobia - Wikipedia

No fear was created in 1989 by Mark Simo, Marty Moates and Brian Simo and began as an alternative lifestyle brand. The first line of No Fear shirts featured slogans or quotes that advocated the virtues of extreme sports. The themes were lack of fear of death, lack of laziness, contempt for social norms and the law.

About Us | No Fear

Telephonophobia is the fear of answering and receiving incoming calls. Just the ringing or vibrating of a phone can be intimidating to some, and it's already spiraled a few people into panic attacks, or at least had them hyperventilating.
